## Oral Exam Schedule

The following is the final oral exam schedule. You can bring all of your material to the exam (report, notebook, textbook, etc). The exam will assess your knowledge and the understanding of the assigned topic. It is important that you prepare yourself well as you will be asked about the whole report, not just the part you did.

Please come on time. If you are late, you will need to wait to the end of the schedule in that particular day and will result in 5% late penalty unless you arrange with other student to swap your slot.
